Strengthening GFF through CSO Engagement

Gathari Ndirangu
MCSP- Kenya

Strengthening GFF through CSO Engagement

- Support the process to include evidence based high impact interventions (HIIIs)
- Strong emphasis on leadership, governance and accountability
- Identify mechanism for formal CSO engagement
- Support government in implementation
- Advocacy and resource mobilization
- Where to direct most resources
- Support government in M&E, documentation and learning
- Part of oversight team

GFF's Fixed Timelines: How to Succeed

- Investment in local health priorities
- Strong and efficient health systems from HH, community to HCF
 - Emphasis on health promotion and preventive services
- Focusing on health as an investment for countries to develop socioeconomically
- Empowerment and education of women and girls- awareness for demand for quality health services
- Stable political environments
- Robust accountability
- Transition to increasing domestic financing for UHC
- Tapping into technology and innovations
